

# CULINARY WORKERS

**F**irst, we rebuilt our union from the inside out. Shop stewards. Committees. Activism. Leadership. Fresh blood. The International. The rest of Labor.

New contracts-saved health and welfare, improved pensions, worked the back-of-the-house.

## THROUGH VICTORY.

6,000 members. The Mirage. O'Sheas. The Excalibur. New respect. We beat the Binions. The Boyds. And now the Elardi's. We elected new politicians. Won new power. We used modern weapons-television, radio, marches, videos.

We became the symbol of American workers fighting back and winning.

Treasure Island

**I**n 1994 our contracts expire. Bob Maxey will try to open the MGM with 5,000 non-union workers. The Luxor and Treasure Island have another 5,000 potential new members.

The hotels are bigger and stronger than ever. So are we. A battle of titans. We will lead one of the great crusades in the history of American labor.

## TO THE FUTURE.

If we don't open the new hotels union, all our new contracts are in jeopardy. If we quit at the Frontier, others will test our willpower.

Our new campaign is target '94... shop stewards, the local, the International, the National AFL-CIO. Target '94... our new political friends, the people of Las Vegas, visitors from around the world.

**We can't afford a repeat of '84. Together, let's Target '94.**
