20 year history is persistence. We have called for civilian control before and we will continue to call for civilian control of the police. In addition, for our friends down at Metro, understand this: Everyday when you put on your uniform, your guns, your mace, your night stick, and your badge, remember to put us in your face, because everyday we will be there calling for civilian control of an out of control, merciless, ruthless, and extremely dangerous group of quasi criminals. THE WESTSIDE STORY

(Continued from Page 3)

The greatest economy the world had ever known? Inspirational black leaders rejoining our previously disassembled people? American young people, black and white, talking about peace and living together in harmony for the first time? With that type of climate, Democrats would have held the white house from 1960 to the year 2000.

Racist white conservatives couldn't have that! The rest is history. EVERY influential liberal leader of that period, black or white, was wasted in the streets between 1960 and 1970! Every single one. After that, with a generation of liberal leaders out of the way, the war hawking Nixons, Fords, Reagans, and Bushes took the lead. They imposed martial law in the streets sending most of black America to prison.

Civil rights became a dirty word. Drugs and crime dominated the scene. The economy became non existent, and most of all, the RICH WHITE community, while the country was falling apart, made more money off the poor, then ever before! So the next time scholars want to study how you can kill off righteous political leaders to implement your own racist right wing strategies, they don't have to study Nazi Germany...they can look at the U.S. peace.
