TINSELTOWN TOPICS...

There is a new 'twist' to the old twist that was popularized by Philadelphia teen recording star Chubby Checker several decades ago, thanks to a rockumentary film titled "Twist" being released by Triton pictures.

Although Chubby Checker has been credited with making the dance an international phenomena, the film reminds viewers it was Hank Ballard who originally penned and recorded the smash single. The film also features rare archival footage and current interviews with singers and songwriters who were a part of the dance-crazed years prior to the Beatles and Britain's musical group invasion of the United States. Additionally, "Twist" highlights contemporary interviews with former "American Bandstand" dancers in tandem with vintage clips of their performances, and will open in Tinseltown and Nu Yawk on August 13th....., and that's Hollywood this time! Until the next tome, Lanier.
