

LETTERS TO THE EDITOR

(Continued from Page 2)
 educate the community on their philosophies. Word is the money if being used to run Linda Howard's campaign for University Board of Regent.

As a voter and concerned citizen, we the people must take a stand and make these nonprofit organizations and corporations accountable for monies they are receiving - some under false pretense. We must put a stop to these perpetrators who obtained

money from candidates who were not given a fair chance!

Sincerely,
 Mary Isaac

Dear Editor:

This letter is to applaud Assemblyman Wendell Williams on the boldness of his August 4, 1994 column captioned "THE PLAN." I too was upset when I read about the PLAN for our community. You see this SHAM plan is only slightly different than

those of the past. The difference this time being that instead of power brokering from downtown City Hall, City Hall has moved inside the community to be closer to you, the prey.

The hunters in this game of prey are none other than Massa Mayor Jones, Councilman Overseer Hawkins, and their hand picked minions, the faithful slaves. "THE PLAN" of course will not materialize to the economic benefit of the community property owners or residents. Games will be played without your knowledge or input and later the city folks will decide the area will best be served if they exercise their power of EMINENT DOMAIN. Yep, take your property for peanuts and sell it to the white developers. You might get a \$4.75 per hour job.

The words chosen to describe the three tier strategy plan are: land use, multi-jurisdictional empowerment, and capital. Allow me to give definition to this grandiose wording beginning with jurisdiction. JURISDICTION is defined as having domain, authority, or control.

McCONNELL

(Continued from Page 11)
 the babies can thrive.

She is a member of the American College of Obstetricians and Gynecologists and an associate member of the American fertility Society. She is also active in the Clark County Medical Society, and the Nevada State Medical Association and their affiliated obstetrics and gynecology chapters.

Dr. McConnell came to Las Vegas in 1992. In her short time with the Department she received the Association of Professor's of Gynecology and Obstetrics (APGO) Excellence in Teaching Award and the Council on Resident Education in Obstetrics and Gynecology (ACOG) National Faculty Award for excellence in resident education.

Infertility, which is defined as at least one unsuccessful year of attempts to conceive, affects over 11,000 couples in the Las Vegas area. Projections suggest that one out of every 10 couples who end up in divorce probably suffered from infertility. The causes for infertility are almost equally divided between the sexes and, in some cases, both partners may be a factor. Therefore, contrary to popular belief, females don't have a monopoly on these problems. Approximately 40% of all infertility cases can be traced to the male. "By using in-vitro fertilization, triplets were recently born, two girls and one boy, to a young couple. With the aid of donor eggs, one of our 49 year old female patients gave birth to a healthy infant after being childless for twenty years" said McConnell.

Dr. McConnell concludes by adding that "I'm sure a lot of people will be surprised to know that the technology to actually influence a couple's chances of selecting the sex they want is closer than you might think. In fact, we hope it will be as close as the Institute in the very near future."

The Institute, located in Las Vegas, is one block north of Charleston Blvd. on 820 Shadow Lane.

For more information you may call the Institute at 702-384-5645.

EMPOWERMENT is to authorize, commission, or entrust. CAPITAL means assets, resources, or wealth. LAND is defined as estate, property, or earth. USE is to utilize, manipulate, deplete, drain, or exploit. Now that you have a clear understanding of the terms used, you can better understand why you weren't invited to participate in THE PLAN.

As a property owner, it is my right as well as yours, to be notified when plans are being formulated that would have an impact on our community. Maybe a lawsuit against Massa, the Overseer, and the Municipality will get their attention. They need to know that we are not ignorant, nor are we second class citizens. They are accountable to us, not the other way around! If I sound angry, I am. You should be too.

To Councilman Hawkins, I must say that everything you do in the dark eventually comes to light. The Hawkins saga will not stop at your past indiscretions. This ongoing fraud you are perpetrating on our people will come to light. SHAME ON YOU!

Sincerely,
 A. Paul Murray
