

Tests That can Save Your Life

We Can Help You Avoid a Stroke... ...in Just 10 Minutes

Stroke often occurs without warning. Doctors often cannot order diagnostic tests for stroke without the presence of symptoms. Therefore, stroke is the 3rd leading cause of death in America and the leading cause of nursing home admissions.

The good news is that ultrasound screenings can help identify problems that can lead to stroke and vascular disease ***before*** it is too late.

Life Line Screening is dedicated to providing the highest quality imaging at an affordable rate. Our goal is to make people aware of an undetected health problem and encourage them to seek follow-up care with their physician.

We'll be in Your Neighborhood!

Where: Las Vegas - Italian American Club - Southern Nevada

When: Thursday, November 17, 2005

Pre-registration is required. Call 1-800-710-1913

Source Code: FKEM-082

You can take a proactive approach to your health. Over the last ten years, Life Line Screening has performed more than 3 million preventive health screenings. A board certified physician licensed in your state evaluates the results and you receive a report within three weeks.
