

Nevada Power.  
More power to you.

78

Not too hot.  
Not too cold.  
**Just right.**

It's about more than just keeping the lights on. It's also about conservation. Even at home. Set your thermostat to 78°. You'll conserve energy and save up to 25% on your power bills. For more tips, visit [nevadapower.com/conserve](http://nevadapower.com/conserve).
