

2008
Las Vegas
 NATIONAL TOURISM WEEK MAY 10-18

Each year, we take this week to celebrate our leading industry and the professionals who make it great. This year, there's plenty to cheer about. In 2007, over 39 million visitors fueled our economy. Even better, more than half their visitor-paid room taxes went back into our communities, raising hundreds of millions of dollars for roads, schools and parks. Impressive numbers, all made possible by the innovation, vision and old-fashioned hard work of our colleagues in the resort industry.

To all of them, and all of you, thank you.

Paid for by the Las Vegas Convention and Visitors Authority
