Historical Background

The Domingo Cambeiro Corporation (DCC) was created in 1970 by Domingo Cambeiro, contributing to a number of architectural projects throughout Las Vegas, Nevada including the Thomas & Mack Center, Clark County Government Center, and the Showcase Mall.

As a Cuban refugee, Domingo arrived in the United States in the early 1960s. He came with his family, including his brother, Arturo Cambeiro (1933-1990). Together with Arturo, the two brothers created Cambeiro and Cambeiro Ltd. and designed the Thomas & Mack Center in 1983.

Designing in Las Vegas for more than forty years, DCC worked on the Clark County Government Center, Showcase Mall, and the McCarran International Airport parking structure and baggage-claim area. DCC also assisted with the prototype designs of Las Vegas elementary and middle schools constructed around 2010. Other works DCC was involved with includes the Las Vegas Convention Center, the West Las Vegas Library, and the College of Southern Nevada West Charleston Campus library and classroom buildings.

Domingo is a foundation trustee for the Community College of Southern Nevada and is politically active through affiliations with groups such as the Nevada Development Authority, American Public Works Association, Clark County Public Education Foundation, Hispanics in Politics, Latin Chamber of Commerce, Nevada Minority Business Council, and the North Las Vegas Chamber of Commerce. He has also worked towards the advancement of sustainable architecture, as well as designed in collaboration with Three Square to end hunger in the Las Vegas community.

DDC would eventually succeed Cambeiro and Cambeiro Ltd. after working on the Thomas & Mack with Domingo taking sole ownership. Arturo would depart and create Arturo Cambeiro & Associates Ltd. Architecture and Engineering.
