<b>Abstract:</b>	The collection is comprised of captured websites and Twitter data related to the mass shooting that occurred at the Route 91 Harvest Festival in Las Vegas, Nevada on October 1, 2017. Captured websites are primarily comprised of articles and news stories from local, national, and international news media outlets. Websites were captured periodically from 2017 to 2018. The collection also includes Twitter data associated with the October 1 shooting that were captured via concurrent queries to the Twitter API for all Tweets containing the term "vegas" occurring September 29, 2017 to October 7, 2017. Also included are files containing tutorials for how to curate and analyze Twitter data which reference the 1 October Twitter dataset for illustrative purposes.

## Historical Background

---

On October 1, 2017, a gunman opened fire from the 32nd floor of the Mandalay Bay Resort and Casino on Las Vegas Boulevard onto 22,000 people in attendance at the Route 91 Harvest country music festival in Las Vegas, Nevada. 58 individuals were killed, and over 800 people injured. The gunman, Stephen Paddock, died by suicide.

## Administrative Information

---

### Access Note

Collection is open for research. Arrangements must be made in advance to access digital files; please contact Special Collections and Archives for additional information.

### Publication Rights

Materials in this collection may be protected by copyrights and other rights. See [Reproductions and Use](#) on the UNLV Special Collections and Archives website for more information about reproductions and permissions to publish.

In adherence to Twitter's Terms of Service, the full Twitter dataset in Series II is only accessible onsite at the University of Nevada, Las Vegas.

### Acquisition Note

The Twitter data was collected by the University of Nevada, Las Vegas (UNLV) Libraries in 2017 using twarc; the archived websites were collected by UNLV Libraries in 2017 and 2018. Twitter data tutorial files were archived by UNLV Libraries in 2023; accession numbers 2017-128, 2017-145, and 2023-028.

### Processing Note

The content in this collection was identified using two methods: Twitter datasets were captured in 2017 by Thomas Padilla who used twarc to search for and capture all Tweets containing the term "vegas" occurring between September 29 to October 7, 2017 before 5:00 PM PT.

UNLV Libraries Special Collections and Archives staff selected websites to archive based on a list of frequently shared links represented from the Twitter dataset. Archived websites were captured, preserved, and managed using Archive-It, a web archiving subscription service. Archived website captures were managed periodically by Tammi Kim from 2017 to 2018 and the descriptions added to the finding aid in ArchivesSpace. Twitter tutorial PDF files were downloaded in 2023 and the descriptions were added to the finding aid.

## Series II. Twitter datasets, 2017

Scope and Contents Note: This series contains data collected from the Twitter microblogging platform. The dataset was captured as a part of a range of efforts to capture Twitter data associated with the October 1, 2017 mass shooting that occurred at the Route 91 Harvest country music festival in Las Vegas, Nevada. Data were gathered via concurrent queries to the Twitter API for all Tweets containing the term "vegas" occurring September 29 and October 7, 2017 before 5:00 PM PT. The full Twitter datasets (restricted to use on campus) is expressed in the JSON (javascript object notation) format structured text files and represents de-duplicated Tweets, shared and re-tweeted URLs, and shared and re-tweeted image URLs. The dataset also includes the images that were associated with the collected Tweets. The public Twitter dataset includes a list of Tweet identifiers for public distribution in accordance with Twitter's Terms of Service.

Title/Description	Containers

Tweet identifiers, 2017

Physical Description: 2 Digital Files (0.538 GB) TXT

Scope and Contents Note: This dataset contains the identifiers for the Tweets in the full dataset in accordance with Twitter's Terms of Service for public distribution. All JSON files in the dataset are sorted chronologically.

Access Note: Tweet identifiers are open to the public and are available online at: <https://n2t.net/ark:/62930/d12v2ch23>. The Tweet

identifiers can be used to retrieve the full Tweet data from Twitter. Hydrator, an Electron based desktop application was created for that purpose. Users can download Hydrator at the following URL: <https://github.com/DocNow/hydrator> By downloading these data you agree to Twitter's Terms of Service. This dataset is intended for academic purposes (non-commercial research) only. Twitter policies do not allow publicly posting or sharing data retrieved from the Twitter API. However, they do allow the sharing of Tweet ids, direct message ids, and/or user ids. Twitter's Terms of Service can be read at the following URL: <https://twitter.com/en/tos>

#### Twitter datasets, 2017

Physical Description: 4 Digital Files (170.00 GB) TXT, ZIP

Scope and Contents Note: This is comprised of all the Tweets captured and the images that were associated with the collected Tweets. The Tweets are expressed in JSON and have been separated into zip files representing 24-hour intervals.

Access Note: This dataset is intended for academic purposes (non-commercial research) only. Access to these data is restricted to UNLV faculty, staff, and students. These data are accessible online at: <https://n2t.net/ark:/62930/d1z31nv8w>. Due to the size of the dataset, direct file transfer is also available at the UNLV Lied Library during Special Collections and Archives hours of operation. Visit the Special Collections and Archives Reading Room located on the third floor of the Lied Library to receive a direct transfer of files. For specific questions, please contact [special.collections@unlv.edu](mailto:special.collections@unlv.edu). Twitter's Terms of Service can be read at the following URL: <https://twitter.com/en/tos>
