Language of the Material:	English
Abstract:	The Elizabeth von Till and Claude N. Warren Professional Papers (1916-2021) are comprised of the personal and professional papers of anthropologist Claude N. Warren and historical preservationist Elizabeth von Till Warren. The materials in this collection primarily consist of research files, maps, and drawings on various archaeological and historical preservation projects in southern Nevada of which they both were involved. This collection includes field notes and surveys from archaeological projects such as the Old Las Vegas Mormon Fort and the Las Vegas Springs Preserve. Records on von Till Warren's involvement with the Old Spanish Trail Association, Southern Nevada Historical Society, and historic preservation work around southern Nevada are represented. Also included are Robert H. Crabtree's archaeological research files, a colleague of Claude Warren who bequeathed his professional files to him upon his death.

Preferred Citation

Elizabeth von Till and Claude N. Warren Professional Papers, 1916-2021. MS-00906. Special Collections and Archives, University Libraries, University of Nevada, Las Vegas. Las Vegas, Nevada.

Biographical Note

Claude Nelson Warren was born March 18, 1932 in Goldendale, Washington. Growing up as the youngest of four children, he attended Centralia Junior College from 1950 to 1952. In 1953, he enrolled in a Columbia Plateau archaeology field school in Washington, where he became associated with Robert Crabtree. He graduated from the University of Washington in 1954 with a bachelor's degree in anthropology. Warren then attended graduate school at Northwestern University in Evanston, Illinois as a Carnegie Fellow in the African Studies Program. It was also at Northwestern University where he met Elizabeth von Till, who was also attending the African Studies Program as a Carnegie Fellow. The two were married in December 1955, and returned to Washington. Warren continued excavation work on the Columbia Plateau until he graduated with a master's degree in 1959 from the University of Washington, Seattle. It was at this time that he also began work with the University of California, Los Angeles (UCLA) Archaeological Survey Office as a research archaeologist alongside colleague and friend Robert Crabtree. Warren continued his excavation work in Southern California, and refined understanding of the San Dieguito and La Jolla complexes near San Diego. He also worked on excavations in the Parowan Valley in Utah.

In 1964, Warren earned his Ph.D. in anthropology from UCLA. The dissertation expanded on his studies of the San Dieguito and La Jolla complexes. Later in 1964, Warren became an Assistant Professor at Idaho State University. In 1967, Warren was hired as an Assistant Professor at the University of California, Santa Barbara (UCSB), where he taught anthropology and worked in the Mojave Desert. In 1969, Warren moved to the University of Nevada, Las Vegas (UNLV) as an Associate Professor and from 1970 to 1972 served as chair of UNLV's Anthropology and Sociology Department. Warren led numerous field schools throughout the Mojave region, and in 1971 led a joint UNLV-UCLA field school in Santa Barbara, California. Warren also led an archaeological survey in 1972 of the Big Springs that discovered artifacts dated back thousands of years and diverted the U.S. Highway 95 around what is now Springs Preserve in Las Vegas, Nevada.

In 1974, while still teaching at UNLV, the Warrens moved to Goodsprings, Nevada. This placed Warren even closer to his research passion of the Mojave Desert. From 1991 to 1994, Warren served as the Chair of Anthropology and Ethnic Studies at UNLV. He retired from teaching at UNLV in 1998 and held emeritus professorship. Despite being retired, Warren continued to teach field schools and served as the archaeologist for Joshua Tree National Park.

Along with his wife Elizabeth, the Warrens have been credited with advocating for many of Southern Nevada's iconic historic sites. The 1972 excavation of the Big Springs was not their only time coming to the defense, as Warren challenged the City of Las Vegas in 1980 regarding a proposal for a runoff basin near the Springs. The Warrens also assisted with the preservation of

the Old Las Vegas Mormon Fort, the Huntridge Theater, Spring Mountain Ranch, Las Vegas High School, the Las Vegas Pioneer Trail, and the Historic Fifth Street School among many more sites.

Claude and Elizabeth have four children together: Claude Jr., Susan, Louis, and Jonathan.

Claude Warren passed away on November 4, 2021.

Biographical Note

Mary Elizabeth "Liz" von Till was born April 16, 1934 in Brooklyn, New York as the fifth of eight children. Her family moved around the Northeast portion of the United States while she was a child, which she attributed to her interest in a variety of environmental and cultural topics. She graduated high school in 1951 and went on to Barnard College. In 1955, she graduated from Barnard with a bachelor's degree in anthropology. She then began graduate studies at Northwestern University in Evanston, Illinois as a Carnegie Fellow in African Studies. It was also at Northwestern University that she met Claude Warren, and the two were married in 1955. That same year, the couple moved to Seattle, Washington.

The Warrens moved to Las Vegas, Nevada in 1969, and that was also when von Till Warren took on her first major preservation project to save what would become Tule Springs State Park. She also led the "Hold the Fort" campaign to save the Old Las Vegas Mormon Fort, while her husband performed the excavation work. In 1972, she became involved in the preservation of the Las Vegas "Big Springs," which diverted the U.S. Highway 95 around what is now Springs Preserve. She also led the Friends of Big Springs organization to lobby for the site's preservation. This was not the

only time that the Warrens would come to the aid of the springs, though, as they returned in the 1980s and 1990s to prevent urban development and officially protect the historic site.

In 1974, the Warrens moved to Goodsprings, Nevada. It was also that same year that von Till Warren graduated from the University of Nevada, Las Vegas (UNLV) with a master's degree in history. In 1981, she was a driving force in the preservation of the Goumond House and its move from downtown Las Vegas to the Clark County Museum. In 1992, she applied for the Huntridge Theater to be listed on the National Register of Historic Places, which she won in 1993. In 2001, she received her Ph.D. from Washington State University, with her dissertation focusing on the history of the Las Vegas springs and water management.

von Till Warren has been widely regarded as a historic preservationist for her advocacy and work with several historic sites throughout Southern Nevada. She has been credited for preserving Spring Mountain Ranch, the Historic Fifth Street School, Las Vegas High School, and Goodsprings Elementary School among many more. She also served as an interpreter in the commemoration of the Las Vegas Pioneer Trail. She participated in the creation of the Neon Museum, visitor centers for the Valley of Fire and Red Rock Canyon, and Clark County Wetlands Park.

von Till Warren founded the Old Spanish Trail Association and fought for its designation as a historic trail in 2003. She was also president of the Southern Nevada Historical Society, and served on the Goodsprings Citizens Advisory Council and the National Trust for Historic Preservation. She taught at UNLV, Clark County Community College, Clark County School District, and the Nevada Wet Project. She also worked as a historian for HRA, Inc. Conservation Archaeology and in the Women's Archives inside of UNLV Lied Library's Special Collections and Archives.

Elizabeth and Claude had four children together: Claude Jr., Susan, Louis, and Jonathan.

Elizabeth von Till Warren passed away on April 21, 2021.

Scope and Contents Note

The Elizabeth von Till and Claude N. Warren Professional Papers (1916-2021) are comprised of the personal and professional papers of anthropologist Claude N. Warren and historical preservationist Elizabeth von Till Warren. The materials in this collection primarily consist of research files, maps, correspondence and drawings on various archaeological and historical preservation projects in southern Nevada of which they both were involved.

Elizabeth von Till Warren's papers consist of correspondence, meeting agendas, reprints, photographs, financial records, reports, manuscript drafts, photographs, slides, and negatives pertaining to the academic career and professional work of Elizabeth von Till Warren. The series also contains organizational records from von Till Warren's involvement with the Old Spanish Trail Association (OSTA), Goodsprings Citizens Advisory Council (GCAC), Goodsprings Historical Society (GHS), and Preservation Association of Clark County (PACC). Research files related to Nevada preservation efforts, site exhibits, and trail markers from locations such as Big Springs, the Old Mormon Fort, and Valley of Fire are represented. The series also contains research files from von Till Warren's dissertation on the Las Vegas Springs, in addition to dissertation drafts.

Claude Warren's papers consist of archaeological maps, surveys and reports, manuscript drafts, and administrative college faculty files. His papers also include organization and associational records, personal correspondence, and academic records. The majority of Warren's papers consist of research files from Nevada and California, in addition to manuscript drafts and files pertaining to his employment at the University of Nevada, Las Vegas. Warren's papers also contain the professional papers of Robert H. Crabtree. Crabtree's files were bequeathed to Warren upon his death, and contain archaeological research surveys and notes, academic records and dissertation research, archaeological associational resource files.

The collection also contains digital files pertain to Elizabeth von Till Warren and contain research files, manuscript drafts, presentation notes, and photographs. Digital files from Claude Warren contain manuscript drafts, excavation site photographs, research files, and files pertaining to Robert Crabtree.

[^ Return to Table of Contents](#)

Arrangement

These records are organized into two series:

Series I. Claude Warren papers, 1916-2019;

Series II. Elizabeth von Till Warren papers, 1934-2021.

Administrative Information

Access Note

Collection is open for research, with the exception of materials that are restricted to protect personally identifiable information. Restrictions are noted at the box level of this inventory. The dates when these materials will be open for research use are listed throughout the inventory.

Where use copies do not exist, production of use copies is required before access will be granted; this may delay research requests. Arrangements must be made in advance to access digital files; please contact UNLV Special Collections and Archives for additional information.

Publication Rights

Materials in this collection may be protected by copyrights and other rights. See [Reproductions and Use](#) on the UNLV Special Collections and Archives website for more information about reproductions and permissions to publish.

Acquisition Note

The materials were donated in 2019 by Louis Warren; accession numbers 2019-052 and 2019-160.

Processing Note

In 2020, Jose Andre Guevara, Karla Del Toro Paz, Sarah Jones, and Tammi Kim accessioned the collection and created the finding aid in ArchivesSpace. In 2020 and 2021, Jose Andre Guevara and Tammi Kim transferred files off of electronic media. No access copies were created for any of the files at this time. In 2021 and 2022, Kassidy Whetstone processed and reboxed the materials, created an inventory, and updated the finding aid in ArchivesSpace.

In 2022, Jose Guevara processed the digital materials stored on optical discs, 3.5" and 5.25" floppy disks. One optical disc and 74 floppy disks failed to transfer. No access copies were made. Kassidy Whetstone reviewed the files and incorporated digital files into the finding aid.

University of Nevada, Las Vegas files, 1951 to 2017

Contributor: University of Nevada, Las Vegas. Department of Anthropology

Physical Description: 14.90 Cubic Feet (23 boxes)

Physical Description: 12.46 Linear Feet

Physical Description: 20 Digital Files (0.001 GB) DOC

Scope and Contents Note: The University of Nevada, Las Vegas (UNLV) files (1951-2017) sub-series includes student papers, departmental correspondence, field school reports, lecture notes, reprints and research publications. The files also contain project files from Death Valley, and projects in collaboration with the Desert Research Institute (DRI) and the University of California Riverside (UCR).

Arrangement: Materials are arranged by topic and category.

Access Note: Where use copies do not exist, production of use copies is required before access will be granted; this may delay research requests. Arrangements must be made in advance to access digital files; please contact UNLV Special Collections and Archives for additional information.

Manuscripts, 1959 to 2015

Physical Description: 16.20 Cubic Feet (25 boxes)

Physical Description: 13.54 Linear Feet

Physical Description: 219 Digital Files (0.141 GB) PDF, DOC, JPG, WPD

Scope and Contents Note: Warren's manuscript files (1959-2015) sub-series includes drafts, research notes, and correspondence related to the publication of books and articles. The manuscript drafts consist largely of research notes from the geologist and archaeologist William Pengelly, Brixham Cave, Charles Lyell and Hugh Falconer in England, on which Warren published articles. The manuscript drafts also contain research files, correspondence, and full publications for Warren's *Purple Hummingbird: A Biography of Elizabeth Warder Crozer Campbell*.

Arrangement: The materials are roughly arranged into three categories.

Access Note: Where use copies do not exist, production of use copies is required before access will be granted; this may delay research requests. Arrangements must be made in advance to access digital files; please contact UNLV Special Collections and Archives for additional information.

Robert H. Crabtree papers, 1920 to 1999

Physical Description: 10.37 Cubic Feet (16 boxes)

Physical Description: 8.67 Linear Feet

Physical Description: 10 Digital Files (0.017 GB) PDF

Scope and Contents Note: The Robert H. Crabtree papers (1920-1999) sub-series contains an extensive account of Crabtree's career as a professor and archaeologist. Materials includes correspondence, photographic prints and negatives, reports, and notes of archeological surveys and excavations done in Southern California, Southern Nevada, Washington, Oregon, and Mexico. Collection includes resources such as field catalogs, proposals, newsletters, annual reports, workflow documentation, conference materials, and meeting minutes from various archaeological and anthropological societies

and organizations. The subseries also includes class notes, dissertation drafts, and manuscripts used by Crabtree during his academic career. Digital files include field notes and reports.

Arrangement: Materials are arranged by topic.

Biographical Note: Robert Herre Crabtree was born September 27, 1928 in Chehalis, Washington. He attended the University of Washington, Seattle, and obtained bachelor's and master's degrees in anthropology. During his early years, he spent nearly every summer in Plateau archaeology and wrote his thesis on the archeology of Rabbit Island and the Pot Holes site.

Crabtree worked as an archaeologist at the Pacific Northwest Pipeline and Shell Pipeline networks. He moved to the University of California, Los Angeles (UCLA) in June 1960 to become a teaching and research assistant, and worked as a graduate research archaeologist for the UCLA Archeological Survey. Crabtree worked at various sites in southern and central California and in Colima, Mexico. Crabtree was a research assistant to Claude Warren at the University of California, Santa Barbara in 1969.

He moved to Las Vegas, Nevada in 1969 to become a research associate at Nevada Archaeological Survey and a lecturer at the University of Nevada, Las Vegas (UNLV). Crabtree made vital contributions to the development of UNLV's anthropology program. Crabtree taught the UNLV Lost City Field School in 1971 along with Warren. Crabtree also contributed to the development of southern Nevada archaeology by offering workshops for the Archaeo-Nevada Society in 1969, training avocationalists and amateur archeologists. He was a research associate at the Desert Research Institute Museum in Las Vegas, Nevada from 1969 to 1970.

Crabtree moved back to California in July of 1973 where he served as a Director of Archaeology for Archaeological Research Incorporated in Costa Mesa, California. Crabtree worked on projects in the Imperial Valley and southern California coast. While continuing his work as a director and president at Archeological Research Inc., he returned to Las Vegas in 1976 to work with Warren on Chumash pottery jar research. During this time, he also collaborated with others on monographs on the archaeology of the Mojave and Colorado deserts. He joined the Bureau of Land Management in 1979 and transferred to Tonopah, Nevada until his passing on January 17, 1986 due to cancer.

Elizabeth von Till Warren Papers, 1919 to 2021

Physical Description: 116.63 Cubic Feet (180 boxes)

Physical Description: 97.50 Linear Feet

Physical Description: 3,836 Digital Files (15.194 GB) DOC, TXT, WPD, PDF, TIF, BMP, JPG, VLC, BAK, DWG, AUX, RRD, TFW, PUB, WMV

Scope and Contents Note: The Elizabeth von Till Warren Papers (1919-2021) series consists of correspondence, meeting agendas, reprints, photographs, financial records, reports, manuscript drafts, photographs, slides, and negatives pertaining to the academic career and professional work of Elizabeth von Till Warren. The series also contains organizational records from von Till Warren's involvement with the Old Spanish Trail Association (OSTA), Goodsprings Citizens Advisory Council (GCAC), Goodsprings Historical Society (GHS), and Preservation Association of Clark County (PACC). Research files related to Nevada preservation efforts, site exhibits, and trail markers from locations such as Big Springs, the Old Mormon Fort, and Valley of Fire are represented. The series also contains research files from von Till Warren's dissertation on the Las Vegas Springs, in addition to dissertation drafts.

Arrangement: Materials are roughly arranged by topic.

Access Note: Where use copies do not exist, production of use copies is required before access will be granted; this may delay research requests. Arrangements must be made in advance to access digital files; please contact UNLV Special Collections and Archives for additional information.

Academic records, 1953 to 2000

Physical Description: 9.72 Cubic Feet (15 boxes)

Physical Description: 8.13 Linear Feet

Scope and Contents Note: The academic records (1953-2000) sub-series consists of von Till Warren's student files such as course notes, research files, reprints and assignments from Barnard College, Northwestern University, University of Washington, Washington State University, and Santa Monica Community College.

Arrangement: Materials are roughly ranged into five categories.

Old Spanish Trail Association records, 1937 to 2016

Physical Description: 25.92 Cubic Feet (40 boxes)

Physical Description: 21.67 Linear Feet

Physical Description: 680 Digital Files (4.524 GB) WPD, PDF, JPG, PPT, DOC, WMV, TIF

Scope and Contents Note: The Old Spanish Trail Association (OSTA) records (1937-2016) sub-series consists of correspondence, meeting minutes, membership newsletters and memos, conference programs, research files, and event flyers. The OSTA records also contain files related to the Association's relationship with the Partnership for the National Trails System (PNTS). PNTS files are present within the series' of both OSTA and the Goodsprings Historical Society (GHS), as the GHS also worked with the PNTS regarding the designation of the Yellow Pine Mine Trail, which is located in the Goodsprings branch of the Old Spanish Trail. Because of von Till Warren's involvement with several organizations simultaneously, there is also overlap from the Preservation Association of Clark County (PACC), Goodsprings Historical Society (GHS), Goodsprings Citizens Advisory Council (GCAC), the Old Mormon Fort, Spring Mountain Ranch, and Springs Preserve.

Arrangement: Materials remain in rough original order.

Access Note: Where use copies do not exist, production of use copies is required before access will be granted; this may delay research requests. Arrangements must be made in advance to access digital files; please contact UNLV Special Collections and Archives for additional information.
