<b>Abstract:</b>	Oral history interview with Lynn Scott conducted by Gayle Allen for the KDWN Radio Lifelines Oral History Interviews on Nursing. This interview is undated but likely took place between 1988 and 1999, the time span that "Lifelines with Gayle Allen" was taped by KDWN Radio. Lynn Scott, a registered nurse and clinical manager of transplant services at University Medical Center, discusses organ transplant procedures. She shares how (at the time of the interview) kidney transplants are the only organ transplant available within the state of Nevada and what patients must do to have these and other transplant procedures completed. Lynn talks about the decision to become an organ donor, how a hospital would know if a person is a donor, and the differences in opinion of supporting organ donorship.
