Organizational History

The University of Nevada, Las Vegas (UNLV) Creative Services unit offers photography, video production, and graphic design services for the UNLV community. In September 1971, UNLV established a formal unit to create and collect photography on campus. Prior to 1971, photographs were contracted out to freelance photographers or collected from various outside sources, such as local newspapers. UNLV Creative Services is responsible for creating visual materials for on-campus clients and taking photographs of events such as athletics games, student life, and commencement ceremonies.

Clients include the various colleges of UNLV, administration, the UNLV Foundation, athletic departments, and the Nevada System of Higher Education. Images are used in university publications, programs, and brand marketing for print and online media. Prior to 1996, the department captured images entirely on film; the use of digital cameras began in 1996 in conjunction with film. In 2003, Creative Services began exclusively taking digital photographs.

Over the years Creative Services has gone by different names including the Photo Department, UNLV Photography, and UNLV Photo Services. It has been part of the Audio Visual department, Telemedia Services, the Office of Information Technology, and Marketing and Public Relations. As of 2022, Creative Services is part of the University Communications department in the Division of Integrated Marketing and Branding.

#68898 Walking Box Ranch scanned photographs

Custodial History Note: Photographs in this collection were scanned by UNLV Photo Services (now Creative Services) in 2010 in coordination with the UNLV Public Lands Institute. These digital images were later transferred to UNLV Special Collections and Archives in 2013 by an employee from the Walking Box Ranch Project at the Public Lands Institute. Digital image set numbers are derived from identifiers assigned by Photo Services during digitization. Walking Box Ranch, now owned by the Bureau of Land Management, retains the original photographs and albums.

#72656: The zombie apocalypse is coming to campus on April 3rd for an emergency preparedness drill between 10:00 a.m. and 2:00 p.m.! UNLV's Office of Emergency Management is counting on YOU to report any zombie sightings and help prevent a pandemic! But first, you'll need to download the RebelSAFE App. SEE a zombie? SAY something! Take a photo with or of a zombie and submit it via the "Emergency Management Be RebelSAFE" button in the RebelSAFE App. The zombie horde will be walking throughout campus looking for brains. Zombies can also be spotted at three different tables (in Pida Plaza, near the Lied Library, and the Richard Tam Alumni Center) where you can learn more about what it means to #BeRebelSAFE, 2019 April 03	digital file 01

#72698: Twin brothers in architecture program, L to R. Name: Rafael Antonio Armendariz Year in School: Senior Major: Architecture My passion for design was first fueled early in my childhood, as I grew up spending much of my time with my father, who owned a design-build firm in Arizona. I decided to pursue a degree in architecture at UNLV with a minor in real estate. I also began taking courses through the Honors College and assumed a leadership role with the UNLV Chapter of the American Institute of Architecture Students. Name: Dominic A. Armendariz Year in School: Senior Major: Architecture I decided that I wanted to be an architect when I was about 3 years old. My father was in the profession, so when I was a toddler, it seemed obvious that when I grew up, I would enter the same field as him. As I got older and watched my father design custom homes in Tucson, I realized the impact that an architect can have on the community and got hooked on the idea of designing spaces for people to live, work, learn, and play. When my family moved to Las Vegas, I began looking for an accessible, accredited architecture program where I could pursue my dream. I ultimately chose UNLV. I joined the School of Architecture and the Honors College, minoring in business administration, and began participating in student leadership opportunities, 2019 April 25	digital file 01

Today the Fountains of Bellagio are still one of the most iconic and popular attractions of Las Vegas. It takes a group of 30 engineers, mechanics, and pool specialists, all dive certified, to keep the attraction firing on all cylinders from the "Bat Cave." Here, we'll tour the "Bat Cave" the control center of the Fountains, and learn the importance of "WOW" attractions that help turn your resort from "OK" to "timeless.", 2019 June 19 Creator: Hawkins, Josh Physical Description: 56 Digital Files	digital file 01
